WORK EXPERIENCE

Velaluqa GmbH, Berlin, Germany — Software Developer

March 2022 – Present

- Developed and maintained multiple Ruby on Rails web applications serving thousands of users.
- Improved CI test suite performance by 77%, reducing runtime from 40 minutes to 9 minutes.
- Migrated the test suite from Selenium WebDriver to Cuprite, improving test reliability.
- Ensured project dependencies remained up to date and free of security vulnerabilities.
- Implemented user impersonation using Pretender and custom middleware for maintenance pages.
- Integrated background job processing with Sidekiq for asynchronous operations.
- Containerized applications using Docker for consistent development and deployment.
- Increased test coverage using RSpec, Turnip, and Capybara.

Creative Works, Lagos, Nigeria — Backend Developer

February 2020 – November 2021

- Built and maintained Django-based web applications in a fast-paced startup.
- Designed REST APIs and collaborated with frontend developers to ship features efficiently.
- Applied agile principles to deliver products within tight timelines.

PROJECTS / CONTRIBUTIONS

smartstuddy (Python, Django)

- Developed a student–teacher collaboration platform where students could post questions and receive help from verified teachers.
- Implemented Q&A threads, user profiles, and moderation tools.

Doctor/Patient Appointment Scheduling Platform (Elixir, Phoenix)

- Built a scheduling and queue management system for healthcare professionals.
- Implemented authentication, role-based access, and appointment workflows.

EDUCATION

University of Nigeria, Enugu — B.Sc. Pure & Industrial Chemistry (2nd Class Upper)

October 2008 – July 2012

Georgia Institute of Technology (Online, edX) — Computer Science Fundamentals & Python Programming

April 2020 – June 2020
